

The Peninsular Dispensary

**The surgery was rated outstanding,
and that was no surprise -
but the dispensary girls are outstanding too
- which some may not realise.**

**If you find there's a gap in your cupboard
where there should be medication,
just tell the girls very nicely
and they're off with no hesitation.**

**They search every nook, every cranny
to locate what you find you need;
every shelf, every cupboard is checked,
their quest is forensic indeed.**

**And when they locate what you want
it's labelled and packaged with speed
and you leave with your much needed items
and your satisfaction is guaranteed.**

**So here's praise for those girls who respond
to the patients who sometimes 'run out'
with a smile and a cheerful "you're welcome"
when they'd like to give us a clout!**

**(I'm one who runs out now and then, and I'm so grateful to you all,
you have my sincere thanks for your patience. I'll do better in
future!)**
